2 Hinder St, Gungahlin, ACT

Results-driven Full Stack Developer with extensive experience in designing, implementing, and deploying innovative web applications. Proficient in diverse programming languages and frameworks, including JavaScript, Typescript, React, and Node.js. Expertise in .NET Core, NET, C#, ASP.NET, EF Core, and MVC frameworks. Skilled in leveraging HTML, CSS, to deliver visually appealing and intuitive applications. Familiarity with cloud platforms such as AWS and Azure, ensuring deployment and scalability of applications in cloud environment. Strong analytical and troubleshooting skills, adept at identifying and resolving complex technical issues. Committed to staying abreast of industry trends and emerging technologies, continuously enhancing skills to deliver cutting-edge solutions.

Technical Skills

- Programming Languages - C#, JavaScript, HTML, CSS, Typescript
- Frameworks - NET, .NET Core, ASP.NET MVC Core, React, Node, Express
- Databases - SQL Server, MongoDB
- Tools - Visual Studio, Git, JIRA
- Other - Microservices, RESTful APIs, MVC Architecture, Responsive Design

Key Skills

- Adaptable & Innovative
- Problem-Solving & Analytical
- Strong Communication
- Leadership Skills
- Quick Learner
- Cross-functional Collaboration

Professional Experience

Best and Less   **07/2022 – Present**
Canberra Assistant Store Manager

- Led cross-functional teams, fostering positive work environment through strategic task delegation and motivational initiatives as an Assistant Store Manager.
- Oversaw daily operations by meticulously managing inventory, ensuring seamless restocking, and optimizing checkout process to enhance overall store efficiency.
- Championed exceptional customer service, consistently resolving issues and ensuring customer satisfaction to create positive and memorable shopping experience.
- Achieved and exceeded sales targets through implementation of strategic initiatives, contributing significantly to supermarket's financial success.
- Upheld safety protocols and regulatory compliance, playing pivotal role in maintaining organized store environment as part of commitment to compliance and safety.

Triweb API   **08/2023 – 10/2023**

Full Stack (MERN) Developer Intern

- Engineered robust User Management System using MERN technologies, showcasing mastery in MongoDB, Express.js, React, and Node.js.
- Implemented advanced Quiz Manager, employing Typescript within MERN stack, underscoring adaptability across diverse technology frameworks.
- Executed hands-on web development with strategic focus on MERN stack, demonstrating prowess in both front-end and back-end intricacies.
- Leveraged mentorship from seasoned developers and industry professionals, extracting valuable insights and best practices to enhance skill set.
- Excelled in collaborative and dynamic work environment, consistently contributing to culture that prioritizes and values innovative ideas.
- Participated in real-world live projects, making substantial contributions to team and individual endeavors.

Knowledge Hut   **09/2022 – 03/2023**

Full Stack (MERN) Developer Bootcamp Intern

- Orchestrated deployment, patching, and domain management for real-world live projects, ensuring seamless operational continuity and reliability.
- Architected backend infrastructure utilizing MERN stack, optimizing system performance and functionality.
- Formulated innovative technical solutions tailored to project requirements, showcasing adaptability and problem-solving prowess.
- Transformed wireframes and designs into fully functional web applications using HTML5, React, Vue.js, Node.js, and databases such as MongoDB and MySQL.
- Developed RESTful services with Node.js, bolstering overall resilience and applications performance.
- Executed unit and integration testing, guaranteeing code's quality and adherence to project specifications.

Webleonz Technology   **01/2020 – 06/2022**

Senior Dot.Net Developer Executive

- Led team in analysis of new projects, providing guidance and solutions to customer inquiries.
- Upgraded existing .NET websites and applications to enhance functionality and performance.
- Completed all phases of software development life cycle, including analysis, design, and testing.
- Participated in highly complex projects, collaborating with customers, managers, and end-users.
- Maintained existing applications while also designing and delivering new applications.
- Provided support and guidance to other developers, fostering collaborative work environment.
- Utilized C#, ASP.NET Core, ASP.NET, ADO.NET, MVC5, jQuery, AJAX, SQL Server, LINQ, JavaScript, WebAPI, and Webservices for development tasks.
- Leveraged version control tools such as GitHub and TFS for code management.
- Utilized project management tools like JIRA for effective project tracking and collaboration.
- Employed development tools such as Notepad++, OpenText, and Microsoft Office for documentation.
- Demonstrated expertise in front-end technologies including HTML5, CSS3, Bootstrap, and Sass.

Shah Net Pvt Ltd.   **10/2016 – 12/2019**

Full Stack NET Developer

- Designed normalized database schema, crafting queries, user-defined functions, and intricate Stored Procedures using T-SQL in Microsoft SQL Server, specializing in bulk data processing with focus on transactional integrity.
- Architected application in N-Layer structure, aligning Presentation, user interface, DAL, and service using C#, .NET framework, ADO.NET, and IIS, adhering strictly to established standards defined by architects.

Certifications

Full Stack Developer Bootcamp
Knowledgehut, 2023

Leadership Management
Crown Institute of Business and Technology, 2022

Asp.Net Core MVC
Udemy, 2022

AWS Fundamentals
Microsoft, 2021
